ReSTORE is your place for used and vintage furniture, electronics, and small appliances. We work with our RePAIR departments to offer an extensive selection of quality computers and large appliances at great prices. All computers, appliances, electronics and small appliances come with a warranty.

ReSOURCE operates two retail storefronts, 266 Pine Street in Burlington and 28 Granite Street in Barre. Both ReSTORE shops provide job and life-skills training, essential household items to families and individuals in crisis, and prevent tons of material from ending up in our landfills each year.
